yet economical diesel engines, balanced with inherently efficient catamaran hulls. The ratio of power to speed for this size powerboat, allows for offshore cruising and long passages that were reserved for displacement boats until now. From the broad aft swim platform to the cozy forward cockpit, from the commanding fly bridge to the large aft cockpit, life and movement onboard is comfortable, simple and secure, thanks to wide passages and stainless steel stanchions, which surround the deck.

The LAGOON POWER 43 is incredibly maneuverable and easy to operate, even single-handed! The great distance between the two propellers makes her extremely manageable in docking and close-quarters maneuvering. Imagine being able to turn 360° within her own length! The balance of twin hulls delivers excellent, stable handling even in turbulent seas, at low or high speeds. The gentle passage of the hulls through the water makes ocean-going navigation simple and pleasant.

From Florida's canals to the blue waters of the Pacific, the LAGOON POWER 43 is as comfortable and stable for daylong escapades as for long passages. Thanks to her shallow draft, venturing through canals or tropical lagoons is easy and safe. Enjoy the excitement of discovery without the stress. Cruising becomes pleasure as you explore beautiful anchorages from the New England coast to the Florida Keys, the Bahamas to the Virgin Islands, the Caribbean to the Gulf Coast, the Pacific North West to Mexico and beyond.
