Description

The NEEL 47 trimaran is a marvel of a cruising yacht. Having won two awards for the 2020 Cruising Magazines Cruising Boat of the Year as well as 2020 Multihull of the Year award this trimaran is full of innovations. It is a cruising multihull that can be easily operated by an owner couple or even a single sailor due to the fact that all control lines are led back to the cockpit.

The NEEL 47 trimaran stems from the design board of famed naval architect Marc Lombard and successfully combines all the benefits of a true blue-water cruising yacht. Safety, Speed and Comfort are fused into an extraordinary modern and timeless design.

The NEEL 47 successfully combines the benefits of cruising or blue water yacht : safety, performance and comfort living. The NEEL 47 offers a new design and sporting look. The optimization of its exterior and interior ergonomics makes it a unique multihull. Its layout is thought to promote a better cohabitation and to keep the privacy of each person.

The NEEL 47 seduces by its exceptional sailing qualities, it allows to taste the sensations of speed while keeping a feeling of comfort and balance. The helm position is elevated, its accessibility and ergonomic allow safe centralized maneuvering as well as an optimized communication with the cockpit. The « Full Beam Cockpit® » extending the cockpit to a size never previously seen on a 47-footer, is instantly seductive. The layout of the boat is designed to optimize user-friendliness on board. The layout of the floats, each with its own independent access ensures privacy for everyone.
