## Description

Every G4 foiling catamaran was handmade in the factory in Lelystad, the Netherlands. A passionate team of craftsmen made the boats according to the individual wishes and requirements of the customer. With its extraordinary lines and performance, the G4 sailed its own course. It did not compete with other yachts suitable for coastal sailing. Light as a feather and very powerful, the G4 delivers the ultimate sailing performance with a touch of adrenaline. It was built and delivered with an extensive package of hydrofoils. The pre-preg structure was state-of-the-art and there was a sea of space for six passengers with lots of comfort. The G4 foiling catamaran was designed as a junior racer with high cruiser content not the other way around. The G4 was the more luxurious, practical, comfortable and sophisticated view of every high performance catamaran that existed until then.

The interior of the G4 foiling catamaran offered space and comfort according to the "less is more philosophy. The extremely spacious cockpit could be used for the preparation and consumption of meals or even a party with 15 people. The cabin even gave full standing height at the entrance. The interior was completed with two queen sized beds and a spacious sofa for 6 to 8 people. Thanks to the great panoramic views, this is a great place to eat, read or navigate. The comfort on board made the G4 suitable for long weekends, where you can travel distances of 300 nautical miles.

This Gunboat G4, Hull #1, is available for immediate sale from its dock in Fajardo, PR. The hulls and spars have recent new paint in the original colors.
