## Description

\*\*\*VERY MOTIVATED SELLERS\*\*\*

BRING OFFERS!

As cruising catamarans continue to evolve, finding the perfect combination of comfort, luxury and performance is the trick for many.

The Catana 50, (first generation) offers a very big and comfortable cat that sails very well. The boat pays homage to the early Crowther designed boats, with fluted bows and big freeboard. It also has beautiful joinery and accommodations. This is a boat that will be great to live on for extended periods, while still being a whole lot of fun sailing to get there.

What distinguishes this boat is really yachty elegance, with a serious turn of high performance fun sailing. This is a trick that is not as easy as it seems!
