Description

GO has been designed and equipped for cruising in comfort! Fully equipped for long passages and off the grid liveaboard cruising, it will take you wherever you want to GO. With its spectacular open layout, you can be at the helm while remaining engaged with guests/crew/companions, and having most lines run back to the helm means being able to take care of most sailing tasks without leaving the safety of the cockpit. Relax in the cockpit social area under the extensive shade provided by the hard bimini and solar arch, have dinner inside or outside, cook any meal with a gas stove top, gas oven, microwave and grill, and sleep in comfort in any of the 4 cabins. The prior owner was an experienced Blue Water sailor and circumnavigator who selected many of the upgrades based upon his extensive offshore experience. After purchasing it, the current owners have made numerous additional upgrades as well to add some extra quality of life items and ensure the boat is as comfortable to live on as it is practical to cruise.
