Description

Since its inception, Outremer has created blue water vessels capable of circumnavigating comfortably with high levels of performance. The Outremer 45 embodies their years of expertise building such boats. The boat is easy to control from the safety of the helm station, with lines run back to a powered winch and throttles located in an easy to access location at the helm. All four corners of the boat are clearly visible and when going to the coach top the low boom offers easy access to the sails and stack pack. These features make the Outremer 45 a delight to sail, even single handed.

Ima in particular is a must see, as the only much desired 3 cabin layout Outremer 45 in the US and with a high level of maintenance this is absolutely a boat worth viewing.

Ima comes with some great owner additions including:

- Air-conditioning
- Solar
- Flir camera
- Hydranet sails
- Water maker
- Low engine hours
- and much more...
