Description

Most listings start with specifications, but with SATORI, a 3-Cabin Owners Version Fountaine Pajot Tanna 47, we'll start with a Tuesday morning instead.

It's just before sunrise, anchored in a quiet bay. The generator hasn't run in two days because she doesn't need it - 1,700W of integrated solar alongside a 900Ah lithium battery bank, handle power needs while you sleep. You brew a morning pot of coffee, drop the hydraulic swim platform, then once you're back onboard you log on to the internet via the integrated Starlink dish, and you start to plan your day. By 9am you've made fresh water for the day, run a load through the washer/dryer, charged up the dive tanks for an afternoon at the reef, and started thinking about the next anchorage you plan to sail off to next.

This is what an actual day on SATORI looks like - because for the past year and a half, this has been her owner's home. That single fact changes everything about what this catamaran is.

Why a Live-aboard Catamaran is the One You Want

A weekend boat, or one that has been sitting at the dock for months without being looked after, will develop hidden problems. Maintenance gets deferred, quirks become problems, and problems develop into major projects.

A live-aboard catamaran is the opposite. The owners sleep onboard each night. There is no room for "I'll get to it next month", as the owner will feel the impact today. Every system has been used as designed, in real cruising conditions, by people who depended on it. Every quirk has been sorted, and every weak point that has been found, has been addressed.

Brokers know this, and the feedback is in - that's why when they're asked which Saona or Tanna 47 is the nicest, cleanest, best-presented one on the market today, they all say SATORI.

SATORI is located in Fort Lauderdale just a short drive from the Fort Lauderdale International Airport, and is available for showings by appointment.

Below are just a few of **SATORI's** notable features:

- **NEW** (Q4 - 2025) Highfield CL380 tender + Yamaha 25HP outboard
- **NEW** (Q4 - 2025) Garmin 8140 charter plotter
- **NEW** (Q4 - 2025) Garmin Fantom 18 radar
- **NEW** (Q4 - 2025) 900Ah LiFePO4 (lithium) battery bank + 1700W solar
- **NEW** (Q1 - 2026) Bottom paint, saildrive seals, and anodes

See below for additional details on **SATORI** and a private note from her owner at the end.

- New water maker membranes (Q1 2026)
- Bottom paint (Q1 2026)
- Saildrive service (Q1 2026)

A Note from SATORI’s Owner:

I bought **SATORI** new in 2022 and my family and I have lived aboard her part-time for the last year and a half. The upgrades you see on this listing aren't a refit-for-resale or due to damage, they are what I personally specified on a boat I planned to keep for years and live on every day.

Living aboard means I know this boat. Every system. Every quirk. Every fix. The only reason I'm selling her is that we're moving up to a different vessel for the next chapter.

If you are seriously considering SATORI, I'm happy to get on a video call and walk you through her in detail — the systems, the upgrades, real-world cruising on her, what owning her actually looks like day-to-day...a direct conversation with the owner, without the marketing spin.

Information & Features

Volvo Penta D2-60F (Engine 1)

Engine Type:	Inboard	Drive Type:	Sail Drive
Fuel Type:	Diesel	Power:	60 hp
Engine Hours:	810
