Description

Welcome aboard **R4EVER**, a U.S Imported (tariff paid) never-chartered 2023 Leopard 45 sailing catamaran, lovingly cared for and thoughtfully upgraded since she was delivered new just a few years ago. This lightly used, like-new, turnkey cruising catamaran offers a thoughtful balance of comfort, safety, and reliability, making her an easy step into your next chapter on the water.

R4EVER's 3-cabin layout is a perfect blend of modern design and functional craftsmanship that designer Simonis-Voogd and builder Robertson & Caine have become well known for producing. These qualities, amongst many others, are what led the Leopard 45 to a prestigious Boat of the Year award by Cruising World Magazine. But what truly sets her apart is her cruising story. After crossing the Gulf Stream between Florida and The Bahamas, **R4EVER** has spent extended time exploring the turquoise anchorages of the Exumas, while also sailing through Nassau and The Berry Islands. Her cruising grounds have ranged from Palm Beach, Florida in the north to George Town in the southern Exumas; a testament to the comfortable and capable cruising she was built for.

Equipped with a vast solar array feeding an expanded lithium battery bank, **R4EVER** is ideal for those seeking energy-efficient, off-grid cruising. And with extremely low engine and generator hours alongside a spotless maintenance record, **R4EVER** is truly turnkey and ready to take you anywhere on day 1!

R4EVER is currently wrapping up her time sailing in Nassau, and in April 2026 will be sailing to Fort Lauderdale where she will be waiting for her new owners just 10 minutes from the Ft. Lauderdale International Airport.

Below are just a few of R4EVER's most notable features:

- **U.S. Importation Duties PAID**
- 1,480W of solar on a custom stainless solar arch
- 900Ah RELiON lithium house battery bank
- Raymarine Navigation & Electronics Pack
