Description

In the evolution of catamarans, Bali has defined a niche that encompasses the best in comfort and innovation. For many sailors, Bali catamarans offer the perfect balance and opportunity to own a truly movable home that sails elegantly between islands, ports and countries.

As a live aboard boat, Bali offers more space and ergonomics than almost any other cat. From her open floor plan to creative berths, and clean bright fit and finish, if you are looking for a great live aboard boat, please consider the Bali.

"Four Sevens" is completely tricked out as a live aboard. In fact, it is a live aboard now and will stay as one no doubt for her next owner. What differentiates this boat is that it has everything, batteries, solar, ergonomics and every functional and comfortable upgrades you would expect to find in a perfect comfortable cruising catamaran.

From the owner:

"Narrowing down the best aspects of Four Sevens to just three is a tough assignment."

1) a major deciding factor for me when buying the boat was the impressive domestic-sized refrigerator/freezer. It provided ample space to stow and keep perishable food fresh for extended periods. This is a critical consideration when planning a long ocean voyage or leisurely cruise with family and friends. In contrast, most sailing vessels have compact refrigeration units, with limited capacity to store and preserve sufficient food. Detours to re-stock often at greatly elevated prices, or settling on a diet of canned and dried foods, becomes necessity. This feature alone cannot be overstated.

2) Space - storage, closet, sleeping, entertainment(48" Smart TV), seated dining. The amount of storage space is enormous both in the cabins and from the deck.

3) comfortable, stable sailing or motor sailing. It is impossible to go upwind and put the Lee rail under. A solid foredeck ensures guests and particularly kids have large dry spaces to layout and enjoy a champagne sail.

3a) the large viewing windows in the main salon cannot go without mention. This vessel is definitely not claustrophobic. Whether seated during passage or relaxing in a tropical bay, the large windows bring the sunlight and the outside world in. The huge pass through windows, when open, allows the enjoyment of magical tropical breezes throughout the boat.

Information & Features

2015 Nanni 50 HP (Engine 1)

Engine Type:	Inboard	Power:	50 hp
