Description

PRELIMINARY PHOTOS | NEW PHOTOS COMING NOVEMBER 2026

Welcome aboard **JUBILEE**, a beautifully equipped 2016 Xquisite X5 3-cabin sailing catamaran that has benefited from significant recent investments designed to make life on the water more enjoyable, more independent, and less expensive.

Among her most notable enhancements are an impressive 4,170W solar array paired with a 1,200Ah Mastervolt lithium battery bank, providing substantial energy autonomy while reducing reliance on shore and generator power. Equally significant is her standing rigging, which was replaced in 2025, addressing one of the larger expenses that buyers of cruising catamarans often face.

Life aboard **JUBILEE** is about having the flexibility to cruise on your own terms. Whether spending a few days in a secluded anchorage or exploring more remote areas, her thoughtful combination of onboard comforts and updated technology and systems makes it easy to enjoy the places you came to see without constantly planning your next marina stop. And with significant maintenance recently completed, her next owners can look forward to spending more time making memories and less time managing projects.

If you're looking for a true turn-key catamaran ready to sail on day 1, **JUBILEE** offers an opportunity to step aboard a proven bluewater platform where much of the investment in independence, comfort, and peace of mind has already been made. All you need to do is sail away...

JUBILEE is located in Ft. Lauderdale, FL just 15 minutes from the Ft. Lauderdale International Airport, and is available for showings by appointment.

Below are a few of JUBILEE'S most notable features:

- **NEW 2026** 4170W of solar + 1200Ah lithium battery bank
